## contents

Executive Summary	<u>ix</u>
CHAPTER 1	
The Nature of Counterfeit Electronic Parts	<u>1</u>
1.1 Introduction	1
1.2 What Is an Electronic Part?	1
1.3 What Is a Counterfeit Electronic Part?	<u>2</u>
1.4 Why Should We Be Concerned about Counterfeit Electronic Parts?	<u>3</u>
1.4.1 Counterfeit Electronic Parts Can Impact Safety and Security	<u>3</u>
1.4.2 Counterfeit Electronic Parts Can Drive Up Program Costs	<u>6</u>
1.4.3 Counterfeits May Not Always Be Detected by Testing	<u>6</u>
1.4.4 Counterfeits May Not Meet "Markings"	<u>7</u>
1.5 Availability of Counterfeit Electronics	<u>7</u>
1.5.1 Counterfeit Electronic Parts in the DoD Supply Chain	<u>8</u>
1.5.2 Senate Armed Services Committee Investigation	<u>13</u>
1.5.3 IHS Numbers on Counterfeit Electronic Parts	<u>14</u>
1.5.4 GAO Report on Counterfeit Electronic Parts 1.5.5 Customs and Border Protection Statistics	<u>14</u>
1.5.6 Numbers of Incidents Involving Counterfeit Electronic Parts	<u>14</u> <u>15</u>
1.6 Where Do Counterfeit Electronic Parts Come From?	<u>16</u>
References	<u>17</u>
References	17
CHAPTER 2	
Counterfeit Electronic Parts Manufacturing	
and the Supply Chain	<u>21</u>
2.1 Introduction	<u>21</u>
2.2 How Are Legitimate Electronic Parts Manufactured?	<u>21</u>
2.3 How Are Counterfeit Electronic Parts "Manufactured"?	<u>23</u>
2.4 What Is a Supply Chain?	<u> 26</u>
2.5 How Are Electronic Parts Purchased by the Supply Chain?	<u> 26</u>
2.5.1 Purchasing from the Original Component Manufacturer	<u>26</u>
2.5.2 Purchasing from the Authorized Distributor	<u>27</u>
2.5.3 Purchasing from the Non-Authorized Distributor	<u>27</u>
