

# DIN EN 16602-70-15:2022-02 (E)

Space product assurance - Non-destructive testing; English version EN 16602-70-15:2021

---

Contents	Page
<b>European Foreword.....</b>	<b>8</b>
<b>Introduction.....</b>	<b>9</b>
<b>1 Scope.....</b>	<b>10</b>
<b>2 Normative references .....</b>	<b>11</b>
<b>3 Terms, definitions and abbreviated terms.....</b>	<b>14</b>
3.1 Terms from other standards.....	14
3.2 Terms specific to the present standard .....	14
3.3 Abbreviated terms and symbols.....	16
3.4 Nomenclature .....	17
3.4.1 Formal verbs.....	17
3.4.2 Conventions .....	18
<b>4 Principles .....</b>	<b>19</b>
<b>5 Generic requirements.....</b>	<b>20</b>
5.1 General.....	20
5.2 Discontinuities and cracks .....	22
5.3 NDT drawing callouts.....	22
5.4 NDT process and configuration control.....	22
5.5 NDT procedure capability demonstration .....	23
5.6 Organizational guidelines and documentation requirement.....	24
5.7 NDT personnel qualification and certification .....	24
<b>6 NDT methods .....</b>	<b>25</b>
6.1 Visual testing .....	25
6.1.1 Overview.....	25
6.1.1.1 General process for visual testing .....	25
6.1.1.2 Visual testing process variations .....	25
6.1.2 General visual testing requirements .....	25
6.1.3 Visual testing equipment.....	26
6.1.3.1 Overview.....	26
6.1.3.2 Requirements for visual testing equipment.....	26
6.1.4 Visual testing application.....	26

6.1.5	Visual testing documentation .....	27
6.1.6	Visual testing process control.....	27
6.1.7	Visual testing process limitations and peculiarities .....	27
6.2	Leak testing .....	28
6.2.1	Overview.....	28
6.2.1.1	General process for leak testing .....	28
6.2.1.2	Leak testing process variations.....	28
6.2.2	General leak test requirements .....	29
6.2.3	Process application .....	29
6.2.3.1	Leak test procedure.....	29
6.2.3.2	Leak test documentation .....	30
6.3	Penetrant testing .....	30
6.3.1	Overview.....	30
6.3.1.1	General process for penetrant testing.....	30
6.3.1.2	Penetrant testing process variations .....	30
6.3.2	General penetrant testing requirements .....	31
6.3.3	Penetrant testing equipment .....	32
6.3.3.1	Overview.....	32
6.3.3.2	Requirements for penetrant testing equipment.....	32
6.3.4	Penetrant testing process application.....	32
6.3.5	Penetrant testing documentation.....	34
6.3.6	Penetrant testing process control .....	34
6.3.7	Penetrant testing process limitations and peculiarities .....	34
6.3.7.1	Overview.....	34
6.3.7.2	Etching requirements .....	35
6.3.8	Standard penetrant fracture control NDT.....	35
6.3.8.1	Overview.....	35
6.3.8.2	Standard fracture control NDT requirements .....	36
6.4	Eddy-current testing.....	36
6.4.1	Overview.....	36
6.4.1.1	General process for eddy-current testing.....	36
6.4.1.2	Eddy-current process limitations and peculiarities .....	37
6.4.2	Eddy-current testing general requirements.....	37
6.4.3	Eddy current testing process variations.....	38
6.4.4	Eddy current equipment .....	38
6.4.4.1	General.....	38
6.4.4.2	Instruments for the eddy-current testing .....	38
6.4.4.3	Probes for the eddy-current testing .....	38
6.4.4.4	Test-setup for the eddy current testing .....	38
6.4.5	Eddy-current testing process application.....	39
6.4.6	Eddy current testing documentation .....	39
6.4.7	Eddy current testing process control .....	39
6.4.7.1	Overview.....	39
6.4.7.2	Reference material blocks for the eddy-current testing .....	39
6.4.8	Standard eddy-current fracture control NDT .....	40

6.4.8.1	Overview.....	40
6.4.8.2	Standard eddy current testing requirements.....	40
6.5	Magnetic particle testing .....	41
6.5.1	Overview.....	41
6.5.1.1	General magnetic particle testing process .....	41
6.5.1.2	Magnetic particle testing process variations .....	41
6.5.2	General magnetic particle testing requirements .....	42
6.5.3	Magnetic particle testing equipment.....	42
6.5.3.1	General.....	42
6.5.3.2	Dry particles .....	42
6.5.3.3	Wet particles.....	42
6.5.3.4	Fluorescent particles .....	43
6.5.4	Magnetic particle testing process application .....	43
6.5.5	MT documentation .....	44
6.5.6	MT process control.....	44
6.5.7	MT process limitations and peculiarities .....	44
6.5.8	Standard magnetic particle fracture control NDT .....	44
6.5.8.1	Overview.....	44
6.5.8.2	Standard magnetic particle NDT requirements .....	45
6.6	X-ray radiographic testing .....	45
6.6.1	Overview.....	45
6.6.1.1	General process .....	45
6.6.1.2	X-ray radiographic testing process variations .....	45
6.6.2	General X-ray radiographic testing requirements .....	46
6.6.3	X-ray radiographic equipment .....	46
6.6.4	X-ray radiographic testing process application .....	46
6.6.5	X-ray radiographic testing documentation .....	47
6.6.6	X-ray radiographic testing process control .....	47
6.6.7	Standard X-ray radiographic fracture control NDT.....	47
6.6.7.1	Overview.....	47
6.6.7.2	X-ray radiographic testing requirements .....	47
6.7	Ultrasonic testing .....	48
6.7.1	Overview.....	48
6.7.1.1	General process for ultrasonic testing.....	48
6.7.1.2	Ultrasonic testing process variations.....	48
6.7.2	General .....	52
6.7.3	Ultrasonic testing equipment .....	52
6.7.3.1	General requirements.....	52
6.7.3.2	Couplants .....	52
6.7.3.3	Search units .....	53
6.7.4	Ultrasonic testing process application .....	53
6.7.4.1	General.....	53
6.7.4.2	Scanning .....	53
6.7.4.3	Scanning index.....	53
6.7.4.4	Qualification.....	54
6.7.4.5	Ultrasonic test documentation.....	54

6.7.5	Ultrasonic testing process control.....	54
6.7.5.1	Ultrasonic testing calibration sensitivity and limitations .....	54
6.7.5.2	Ultrasonic thickness gauge .....	55
6.7.5.3	Digital ultrasonic thickness gauge.....	55
6.7.5.4	Reference blocks.....	55
6.7.6	Ultrasonic testing process limitations and peculiarities .....	56
6.7.6.1	Overview.....	56
6.7.7	Standard ultrasonic fracture control NDT .....	57
6.7.7.1	Overview.....	57
6.7.7.2	Standard ultrasonic testing requirements.....	57
6.8	Proof testing .....	58
6.8.1	Overview.....	58
6.8.2	Proof testing requirements .....	58
<b>7</b>	<b>Non-destructive testing of welds .....</b>	<b>59</b>
<b>8</b>	<b>Non-destructive testing of products .....</b>	<b>60</b>
8.1	Overview .....	60
8.2	General.....	60
8.3	Wrought products .....	61
8.3.1	Overview .....	61
8.3.2	Raw material testing.....	61
8.3.3	Common wrought discontinuities.....	62
8.4	Forgings .....	62
8.4.1	Overview .....	62
8.4.2	Raw material testing.....	62
8.4.3	Common forging discontinuities .....	63
8.5	Castings .....	63
8.5.1	Overview .....	63
8.5.2	Raw material testing.....	63
8.5.2.1	General.....	63
8.5.2.2	Penetrant testing of castings.....	63
8.5.2.3	Ultrasonic testing of castings .....	64
8.5.2.4	X-ray radiographic testing of castings .....	64
8.5.2.5	X-Ray computed tomographic (CT) of castings .....	64
8.5.2.6	Common casting discontinuities .....	64
8.6	Laminated composite materials .....	65
8.6.1	Overview .....	65
8.6.2	Raw material testing.....	65
8.6.2.1	Overview.....	65
8.6.2.2	Testing of intermediate products .....	66
8.6.3	Inspection techniques for composites.....	66
8.6.3.1	General.....	66
8.6.3.2	X-Ray Radiographic testing of composites .....	66
8.6.3.3	X-ray Computed Tomographic (CT) Inspection of Composites .....	66
8.6.3.4	Guided In-Plane Wave Inspection of Composites .....	67

8.6.3.5	Ultrasonic C-Scan and Phased Array (PAUT) of Composites .....	67
8.6.3.6	Common discontinuities of Composites .....	67
8.6.4	NDT for joining dissimilar materials .....	68
8.6.4.1	Overview.....	68
8.6.4.2	Steps for specifying NDT for difficult features .....	68
8.6.4.3	NDT Coupled with Destructive Testing as Quality Control .....	69
<b>9</b>	<b>Non-destructive testing of PFCI .....</b>	<b>70</b>
9.1	General.....	70
9.1.1	Overview.....	70
9.1.2	General requirements .....	71
9.1.3	Capability demonstration.....	72
9.1.4	Testing of raw material.....	72
9.1.5	Testing of safe life finished parts .....	73
9.2	Non-destructive testing of metallic materials .....	73
9.2.1	General requirements .....	73
9.2.2	NDT categories versus initial crack size .....	74
9.2.2.1	Standard fracture control NDT .....	74
9.2.2.2	Special fracture control NDT .....	79
9.2.2.3	Crack screening proof test .....	81
9.2.3	Inspection procedure requirements for Standard fracture control NDT .	81
9.2.3.1	Overview.....	81
9.2.3.2	Requirements .....	81
9.3	NDT for composites, bonded and sandwich parts.....	82
9.3.1	Overview .....	82
9.3.2	Testing requirements .....	82
9.3.2.1	General requirements.....	82
9.3.2.2	Close visual testing .....	82
9.3.2.3	NDT methods other than close visual testing.....	82
<b>Annex A (normative) NDT plan - DRD .....</b>	<b>84</b>	
A.1	DRD identification .....	84
A.2	Expected response .....	84
<b>Annex B (normative) NDT report - DRD .....</b>	<b>86</b>	
B.1	DRD identification .....	86
B.2	Expected response .....	86
<b>Annex C (normative) NDT procedure - DRD .....</b>	<b>91</b>	
C.1	DRD identification .....	91
C.2	Expected response .....	91
<b>Annex D (normative) Eddy-current testing instruction - DRD .....</b>	<b>92</b>	
D.1	DRD identification .....	92
D.2	Expected response .....	92

<b>Annex E (informative) Catalogue of potential discontinuities.....</b>	<b>93</b>
<b>Annex F (informative) Example for POD evaluation , software and documentation.....</b>	<b>95</b>
F.1 Theory .....	95
F.2 POD demonstration .....	96
<b>Annex G (informative) Complementary material information.....</b>	<b>99</b>
G.1 Overview .....	99
G.2 forgings and rolled products .....	99
G.3 Castings .....	101
G.4 Composite products.....	101
G.5 Ceramics .....	103
<b>Bibliography.....</b>	<b>104</b>

## Figures

Figure 4-1: Flow chart showing steps to be taken for a part and choice of NDT method and technique .....	19
Figure 6-1: A-Scan, typical display of ultrasonic signals .....	49
Figure 6-2: B-Scan, typical display of ultrasonic signals .....	50
Figure 6-3: C-Scan, typical display of ultrasonic signals .....	50
Figure 6-4: S-Scan, typical display of ultrasonic signals .....	51
Figure 9-1: Initial crack geometries for parts without holes .....	77
Figure 9-2: Initial crack geometries for parts with holes .....	78
Figure 9-3: Initial crack geometries for cylindrical parts .....	78

## Tables

Table 6-1: Examples of acceptance limits leak test rates.....	29
Table 8-1: Thickness differences between sheet and plate .....	61
Table 9-1: Initial crack size summary, Standard fracture control NDT.....	75
