## CONTENTS

FOREWORD .....	3
1 Scope .....	5
2 Normative reference .....	5
3 Terms and definitions .....	5
4 Printing specification .....	6
4.1 General.....	6
4.2 Size of a texture map .....	6
4.3 Printing quality of a texture map.....	6
4.3.1 Printing quality.....	6
4.3.2 Sampling line.....	7
4.3.3 Quality measure .....	8
4.4 Location of a texture map.....	11
4.5 Location of a notch .....	11
Annex A (informative) Examples of visible quality of a texture map .....	13
Annex B (informative) Creating process of printed matter including a texture map .....	15
Figure 1 – Sampling lines in case of size M texture map .....	7
Figure 2 – Reflectance pattern of cells on scanning the sampling lines .....	8
Figure 3 – Length between end points of tick marks on a horizontal sampling line .....	9
Figure 4 – Location of a texture map.....	11
Figure 5 – Location of a single notch .....	12
Figure 6 – Location of double notches .....	12
Figure A.1 – Texture map with high printing quality.....	13
Figure A.2 – Texture map including low contrast cells and non-square cells.....	13
Figure A.3 – Texture map with low sharpness .....	14
Figure A.4 – Texture map processed by non-preserving data compression .....	14
Figure B.1 – Creating process of printed matter including a texture map .....	15
Table 1 – Sizes of a texture map.....	6
Table 2 – Printing quality of a texture map .....	7
Table 3 – Value of print contrast .....	8
Table 4 – Value of symmetry of cell pattern .....	9
Table 5 – Value of squareness.....	9
Table 6 – Value of size accuracy .....	10
Table 7 – Value of tick mark identification .....	10
Table 8 – Value of quiet zone sufficiency .....	10
Table 9 – Value of uselessness of error correction.....	11

PRESENTATION OF PRINTED TEXTS**

## FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 62875 has been prepared by technical area 10: Multimedia e-publishing and e-book technologies, of IEC technical committee 100: Audio, video and multimedia systems and equipment.

The text of this standard is based on the following documents:

CDV	Report on voting
100/2292/CDV	100/2400/RVC

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.

The committee has decided that the contents of this publication will remain unchanged until the stability date indicated on the IEC website under "<http://webstore.iec.ch>" in the data related to the specific publication. At this date, the publication will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.

A bilingual version of this publication may be issued at a later date.

**IMPORTANT – The 'colour inside' logo on the cover page of this publication indicates that it contains colours which are considered to be useful for the correct understanding of its contents. Users should therefore print this document using a colour printer.**

PRINTING SPECIFICATION OF TEXTURE MAP FOR AUDITORY  
PRESENTATION OF PRINTED TEXTS**

## **1 Scope**

The texture map for auditory presentation of printed texts is printed on paper or shown on display devices. This International Standard specifies the printing quality of this texture map on paper.

In order to ensure an interoperability of the texture map specified in IEC 62665, a printing specification based on the quality of this International Standard should be employed.

## **2 Normative reference**

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

IEC 62665, *Multimedia systems and equipment – Multimedia e-publishing and e-books technologies – Texture map for auditory presentation of printed texts*
