## ASD-STAN STANDARD NORME ASD-STAN ASD-STAN NORM

ASD-STAN prEN 4612-006

Edition P 2 March 2018

PUBLISHED BY THE AEROSPACE AND DEFENCE INDUSTRIES ASSOCIATION OF EUROPE - STANDARDIZATION Rue Montoyer 10 - 1000 Brussels - Tel. +  $32\ 2\ 775\ 8126$  - Fax. +  $32\ 2\ 775\ 8131$  - <u>www.asd-stan.org</u>

ICS:

Supersedes edition P 1 of March 2005 and will supersede EN 4612-006:2011

**Descriptors:** 

## **ENGLISH VERSION**

Aerospace series
Cables, electrical, for general purpose, single and multicore assembly
XLETFE Family
Jacketed or screened and jacketed
Part 006: Tin plated copper
Operating temperatures, between - 65 °C and 135 °C
Dual extruded wall for open applications, with jacket and screen (braid)
UV laser printable — Product standard

Luft- und Raumfahrt
Ein- und mehradrige elektrische Leitungen
für allgemeine Verwendung
XLETFE Familie
mit Mantel oder geschirmt und Mantel
Teil 006: Kupfer verzinnt
Betriebstemperaturen zwischen - 65 °C und 135 °C
Doppelt extrudierte Isolierung
für externe Verwendung,
mit Mantel und Schirm (Geflecht)
UV-Laser bedruckbar — Produktnorm

Série aérospatiale
Câbles, électriques, d'usage général,
mono et multiconducteurs
Famille XLETFE
Gainés ou blindés et gainés
Partie 006 : Cuivre étamé
Températures de fonctionnement
comprises entre - 65 °C et 135 °C
Fil double isolé pour applications externes,
gainé et blindé (tressé)
Marquable au laser UV — Norme de produit

This "Aerospace Series" Prestandard has been drawn up under the responsibility of ASD-STAN (The AeroSpace and Defence Industries Association of Europe - Standardization). It is published for the needs of the European Aerospace Industry. It has been technically approved by the experts of the concerned Domain following member comments.

Subsequent to the publication of this Prestandard, the technical content shall not be changed to an extent that interchangeability is affected, physically or functionally, without re-identification of the standard.

After examination and review by users and formal agreement of ASD-STAN, the ASD-STAN prEN will be submitted as a draft European Standard (prEN) to CEN (European Committee for Standardization) for formal vote and transformation to full European Standard (EN).

The CEN national members have then to implement the EN at national level by giving the EN the status of a national standard and by withdrawing any national standards conflicting with the EN.

ASD-STAN Technical Committee approves that: "This document is published by ASD-STAN for the needs of the European Aerospace Industry. The use of this standard is entirely voluntary, and its applicability and suitability for any particular use, including any patent infringement arising therefrom, is the sole responsibility of the user."

ASD-STAN reviews each standard and technical report at least every five years at which time it may be revised, reaffirmed, stabilized or cancelled. ASD-STAN invites you to send your written comments or any suggestions that may arise.

All rights reserved. No parts of this publication may be reproduced, stored in a retrieval system or transmitted, in any form or by any means, electronic, mechanical, photocopying, recording, or otherwise, without prior written permission of ASD-STAN.

## **Foreword**

This standard was reviewed by the Domain Technical Coordinator of ASD-STAN's Electrical Domain.

After inquiries and votes carried out in accordance with the rules of ASD-STAN defined in ASD-STAN's General Process Manual, this standard has received approval for Publication.
