Beschriftungen, Oberflächen und Materialien
verursacht durch die Reibung
der Fingerkuppe oder der Hand**

**Série aérospatiale
Essais d'environnement
Essai Xb : Abrasion de marques,
lettres, surfaces et matériaux
par cause de frottement
de doigts et de mains**

This "Aerospace Series" Prestandard has been drawn up under the responsibility of ASD-STAN (The AeroSpace and Defence Industries Association of Europe - Standardization). It is published for the needs of the European Aerospace Industry. It has been technically approved by the experts of the concerned Domain following member comments.

Subsequent to the publication of this Prestandard, the technical content shall not be changed to an extent that interchangeability is affected, physically or functionally, without re-identification of the standard.

After examination and review by users and formal agreement of ASD-STAN, the ASD-STAN prEN will be submitted as a draft European Standard (prEN) to CEN (European Committee for Standardization) for formal vote and transformation to full European Standard (EN).

The CEN national members have then to implement the EN at national level by giving the EN the status of a national standard and by withdrawing any national standards conflicting with the EN.

ASD-STAN Technical Committee approves that: "This document is published by ASD-STAN for the needs of the European Aerospace Industry. The use of this standard is entirely voluntary, and its applicability and suitability for any particular use, including any patent infringement arising therefrom, is the sole responsibility of the user."

ASD-STAN reviews each standard and technical report at least every five years at which time it may be revised, reaffirmed, stabilized or cancelled. ASD-STAN invites you to send your written comments or any suggestions that may arise.

Material Domain

Contents	Page
Foreword	2
1 Scope	3
2 Normative references	3
3 Terms and definitions	3
4 General description	3
5 Description of the test apparatus	3
6 Severity	5
7 Preconditioning	5
8 Initial measurements	5
9 Testing	6
10 Intermediate measurements	6
11 Recovery	6
12 Final measurements	6
13 Relevant Information to be given in the test report	7
Annex A (informative) Schematic drawing of a test apparatus for test Xb	8
Annex B (informative) Additional textiles for testing	9
Annex C (informative) Cabin zones and test media in cabin	10
C.1 Cabin zones	10
C.2 Test media in cabin	10
Annex D (informative) Machine and cross direction	15
Bibliography	16

Foreword

This standard was reviewed by the Domain Technical Coordinator of ASD-STAN's Material Domain.

After inquiries and votes carried out in accordance with the rules of ASD-STAN defined in ASD-STAN's General Process Manual, this standard has received approval for Publication.
