

ASD-STAN STANDARD NORME ASD-STAN ASD-STAN NORM		ASD-STAN prEN 9138 Edition P 1 January 2018
		PUBLISHED BY THE AEROSPACE AND DEFENCE INDUSTRIES ASSOCIATION OF EUROPE - STANDARDIZATION Rue Montoyer 10 - 1000 Brussels - Tel. + 32 2 775 8126 - Fax. + 32 2 775 8131 - www.asd-stan.org
ICS:		
Descriptors:	Note: Technically equivalent writings published in all IAQG sectors	
ENGLISH VERSION		
Aerospace Series — Quality Management Systems — Statistical Product Acceptance Requirements		
Luft- und Raumfahrt — Qualitätsmanagementsysteme — Statistische Produktannahmeanforderungen		Série Aérospatiale — Système de management de la qualité — Exigences d'acceptation statistique des produits
<p><i>This "Aerospace Series" Prestandard has been drawn up under the responsibility of ASD-STAN (The AeroSpace and Defence Industries Association of Europe - Standardization). It is published for the needs of the European Aerospace Industry. It has been technically approved by the experts of the concerned Domain following member comments.</i></p> <p><i>Subsequent to the publication of this Prestandard, the technical content shall not be changed to an extent that interchangeability is affected, physically or functionally, without re-identification of the standard.</i></p> <p><i>After examination and review by users and formal agreement of ASD-STAN, the ASD-STAN prEN will be submitted as a draft European Standard (prEN) to CEN (European Committee for Standardization) for formal vote and transformation to full European Standard (EN).</i></p> <p><i>The CEN national members have then to implement the EN at national level by giving the EN the status of a national standard and by withdrawing any national standards conflicting with the EN.</i></p> <p><i>ASD-STAN Technical Committee approves that: "This document is published by ASD-STAN for the needs of the European Aerospace Industry. The use of this standard is entirely voluntary, and its applicability and suitability for any particular use, including any patent infringement arising therefrom, is the sole responsibility of the user."</i></p> <p><i>ASD-STAN reviews each standard and technical report at least every five years at which time it may be revised, reaffirmed, stabilized or cancelled. ASD-STAN invites you to send your written comments or any suggestions that may arise.</i></p> <p><i>All rights reserved. No parts of this publication may be reproduced, stored in a retrieval system or transmitted, in any form or by any means, electronic, mechanical, photocopying, recording, or otherwise, without prior written permission of ASD-STAN.</i></p> <p><i>ISO 9001:2015 is reproduced in this document with the permission of the International Organization for Standardization, ISO. No parts of this standard may be reproduced in any form without the prior written consent of ISO at copyright@iso.org. ISO Standards can be obtained from any ISO member and from the web site of the ISO Central Secretariat at www.iso.org. Copyright remains with ISO.</i></p>

Edition approved for publication 1st January 2018	Comments should be sent within six months after the date of publication to ASD-STAN	Quality Domain

Contents

	Page
Introduction	7
0.1 Paradigm of quality requirements and product acceptance plans.....	7
0.2 Acceptance method considerations	8
1 Scope.....	11
1.1 Purpose.....	11
1.2 Application	11
2 References	11
2.1 International Aerospace Quality Group publications.....	11
2.2 American National Standards Institute publications.....	12
2.3 Federal Aviation Administration publications.....	12
2.4 International Organization for Standardization publications.....	12
2.5 Japanese standards	13
2.6 Published books and periodicals	14
2.7 SAE International publications	14
2.8 Standardization Administration of China publications	15
2.9 United States Military standards.....	15
3 Terms and definitions	15
4 General requirements	27
4.1 Introduction to general requirements	27
4.2 Trained personnel	27
4.3 Safety/critical characteristics	27
4.4 Quality requirements and parameters	27
4.5 Selection of samples.....	29
4.6 Consideration of product and process characteristics.....	29
4.7 Evaluation systems.....	29
4.8 Non-conformances (within the sample)	29
4.9 Statistical product acceptance plans and records.....	30
4.10 Alternate statistical techniques for product acceptance.....	30
4.11 Auditing of statistical techniques for product acceptance.....	30
5 Required information to be documented.....	30
5.1 Documented procedure requirements	30
5.2 Initial Reliability Requirement or quality parameter values for product acceptance	30
5.3 Assigning responsibilities.....	31
5.4 Assigning where applied	31
5.5 Establishing a training program	31
5.6 Controlling non-conformances	31
5.7 Monitoring performance and effectiveness	31
5.8 Defining adjustments to inspection frequency	31
5.9 Customer approval of procedures and plans.....	31
6 Requirements for accepting product by individual lots	31
6.1 General requirements for individual lot sampling.....	31
6.2 Quality parameters for individual lot sampling	32
6.3 Sample sizes for individual lots	32
